VICTORIA WATER WURKS.

UNDER AUTHORITY 4: F THE COR-poration of Victoria Water Works Act, 1873, and the Municipal By-Law authorizing 'the construction of Water Works for the City of Victoria, 1873,

applications will be received at the office of the under-signed until the 2 tts day of July, for the second issue of Water Works Debentures, and should application to made for more in amount than the issue authorized by the Act, they will be distributed pro rata. The Debentures will be issued at par, as follows, viz.: \$10,000 On 15th MAY, 1873; 15.000 On 1st AUGUST, 1873;

......On 1st A !'K1L, 1874; Payable in twenty-five years from date thereof. Payable in twenty-five years from date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time, the said Bebentures for like purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased, shall be decided by baid at, of which one month's sotice shall be given, by publication in the Government Gazette, or in one or more of the local newspapers. The Debentures will bear interest at the rate of seven per cent, per annum, payable half yearly, and compans will be strached to each Debenture for said interest, which shall be paid on presentation as they become due.

The security offered for repayment of Debentures is as follows, viz :--A preferential lieu will be given on all works to be erected; also upon the land and other property acquired for Water Works purposes, and on the revenue, amounting to about \$50,000 per annum, which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act, Amendment Act, 1873, the Roan Ordinance, 1869, and the load Amendment Ordinance, 1810. Ample security is thus given to those wishing to invest in Debentures. given to those wishing to invest in Debentures.

A deposit of Ten per cent, on the amount of Debentures applied for, will require to be paid into the Bank of Bristish North America to the credit of the Water Works account, a receipt for said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank, and handed over to the party who presents the Water Commissioner's certificate of his being entitled to receive the said Debentures, on his paying the full equivalent as men foned in said certificate, and in the event of the Debentures not being fully paid for on the day of issue above mentioned, the deposit of Ten per cent, shull be forfeited to the use of the Water Commissioner for Water Works purposes.

purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the Works to be constructed; the proposed Works coust tim bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of hateress in a new six miles, and present me engineering difficulties in carrying out the undertaking Forms of application for Debentures with Bank deposit receipt attached, as well as any further information that may be de-ired, can be hed by application personally, or by letter addressed to the Commissioner. THE EPIZOOTIC .- This epidemic seems at last to have reached Portland, but not in the aggravated form with which San Francisco Fraser, Messrs. Deas, Landvoight, Ross, Jessop, Armstrong, and Archdeacon Reece. was visited. The Portland Bulletin says :-"This malady has made its appearance in reality new, and not in isolated cases either, but in a general manner. All the public stables in the city have several animals that have been attacked by it, but in its mildest form. It seems to have made its appearance is seriously ill. The remainder have a light ried from about \$2,500 to \$3,550. running from the nostrils, a short cough, which is quite frequent, and the eye has a listless aspect. The remedy used is to allow the animals to drink water in which some bran has been mixed, and to give them rest. Allowing them to roam over a pasturage, has also been found efficacious, as the grass pos-

sesses cathartic properties. What the result of the disease will be, none can foretell, but those who have a knowledge of diseases of this sort state that it will be very trivial, and that it is not probable that half a dozen animals in the city will die from

RUMOUS ABOUT THE PACIFIC MAIL COMPANY New York, May 14th .- Various rumors are base located in the same section of country. matters pertaining to this Province are delay-AND THE NEW STEAMSHIP LINE TO CHINA .serrent to-day in regard to the Pacific Mail Company; one being that the steamer "Altona," just arrived at San Francisco, is the first steamer of the projected opposition line between San Francisco and China. In this ressel belongs to a London firm, a mem-ber of which while in China, contracted to take a cargo of wheat from San Francisco to Esgland, and in making the voyage to San Francisco, took a cargo of coolies from Hong-kong, and that the trip to San Francisco has nification in connection with the long talked-of English line. Another story used was that the old shipping house of Williams & Guyon has been contemplating moving into the Pacific Mail Company, but have now own steamers, independent of the Pacific for assaulting Officer McGarthy in the execution of his duty. A cross charge brought Chies. This is story started so late that it is against the said officer by the defendant concluded not to do so, but will run their own steamers, independent of the Pacific impossible to verify it on authority, but it is believed to be merely an invention to assist

AQUATIC ENEMIES .- During the firing of the Saturday last, one of the seamen named Henry Miles, unfortunately dropped overboard a purse containing some \$80. Yester-board a purse containing some \$80. Yester-bis. day the government diver obtained permission from the commanding officer of the vessel to make use of the diving apparatus attached to the Tenedos, but after some five or six futile attempts to recover the treasure, each of 30 minutes duration, he was obliged at last to beat a hasty retreat from being voraciously attacked by a number of dogfish. His hands were more or less lacerated and no doubt had the diver remained longer under the surface of the water, he would have suffered much more severely. Discretion proved the better part of valor and hence his present safety. The money is still at the bottom

OUR COAL EXPORTATIONS .- The Ottawa Citizen of the 7th of this month, has this paragraph : " We have been informed by the Marine and Fisheries Department, that it has received a return of the quantity of coal raised by the Vancouver Coal Company, and experted from Nanaimo barbor, Vancouver friend that he expected daily to receive in-Island, British Columbia; from which it ap-structions (with others) to return to this pears that the quantity of coal exported in 1872, was 46,148 tons, while for 1871, it was 34,866 tons; and for 1870, it was 29,699 tons. It will be seen from this, that the production of coal in that part of the Dominion is rapidly increased. of coal in that part of the Dominion is rapidly increasing, and before long will probably figure as a very large item in the exports of the country. Another coal mine, called the Wellington Colliery, at Departure Bay, near Nanaimo, was opened in March, 1672, and the quantity exported from there during 1872 was 13,324 tons."

Epocarios .-- The Supt. of Education, Mr Jessop, left here per the steamer Otter yesterday morning, and will be absent on a tour through the lower and upper Fraser school districts for a period of five weeks.

Mr Jessop will proceed to Burraid Inlet and Mr Jessop will proceed to Burraid Inlet and New Westminster this week, leaving the latter place on Saturday next for Yale and Lytton, thence he will travel to Lillooet, Dog Creek and Cliaton, at the last of which places an examination of teachers will be held under his superintendence, returning wis Cache Creek to Yale. The Lower Fraser schools will be visited on the home route and the Superintendent will doubtless meet with s very warm welcome at the various settlements it is at present his intention in educa-tional interests to visit.

MELANCHOLY CASE OF DROWNING .- A telegram was received in this city yesterday morning, announcing the death by drowning of Mr. George Muir, while crossing the Nico-la river, on the 21st inst. The deceased was a native of Erskine, near Glasgow, Scotland, and was on his way down to Yale to meet his betrothed, with whom he was shortly to enter into the bonds of marriage. The indy who arrived here per the steamer Prince Al-fred on Sunday night direct from Scotland, and who was to have proceeded at once to descrip yale, received the melancholy intelligence above named, leaving her in a strange country with this sudden and unhappy blow to

bear up against. I have known "Suwance" alias James McGrath, for the last fourteen years, and am not surprised at all to see such a tissue of falsehoods and slanders coming from his vindictive mind. But I was much surprised to that it is a prevalent opinion in Germany that President McMahon will prove the counterpart of Gen. Marck, restorer of the house truth of any statement made by McGrath. of Stuart to the English throne, and that his Yet when I was informed who the man was election heralds a legitimate restoration in that vouched for the veracity of McG:ath, I must say that I do not wonder; for this would-be respectable man is no other than a fellow who kept a small trading post at Alert Bay, but left between two days, forgetting to settle with his creditors.

The wretch ought to be pilloried for his atrocious calumnies.

BANKERS : BANK OF BRITISH COLUMBIA.

THE COMPANY IS PORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Esquimate Harbor, and the business carried on therein, consisting of Tanning, and Boot and Shoe Manufacturing, and of continuing

the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. witzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Taimery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

nost approved Machinery.

The Tannery has every appliance for the saving abor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be incrossed to ten times its present power, if at any time required, either for the purposes of this undertaking, of for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never fulling. never failing.
In fact the business is in thorough working order, as
Mr. Switzer's services as Manager of the Werks will

retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Sprin
Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

article.

The sales for 1872 amounted to nearly \$30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871 was about \$100,00, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

character of the business, have due weight with all who are in any way interested in the prosperity of the Pro-

vince.
It should be remarked that this company will become
at once possessed of two businesses with established
connections, without any interruption to working or
loss of time in transfer, and will therefore have from the
first day of its possession a revenue from a business
which is capable not only of immediate, but, in the
first was unjusted extension. which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of this property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent has first been paid to the new shareholders.

Applications for shares may be made to the Secretary Applications for shares may be made to the Secretary protem., the Bank of British Columbia, or to Messrs. Drake & Jackson.
